

CHECK-IN TO A NEW LIFESTYLE.  
NEW RULES, NEW VIBES.

BUSINESS PORTFOLIO

EVOLUTION is a new generation of lifestyle hotels that breaks away from the traditional hotel format.

More than just places to stay, EVOLUTION hotels are urban hubs designed to integrate the rhythm of the city and the lifestyle of those who frequent them. They are multifunctional places, designed for working, relaxing, socialising, exploring culture and enjoying new experiences, all in one place.

We believe in a more fluid, intuitive hospitality that is in line with today's lifestyles. And that is what drives us. The brand's new signature, 'New Rules, New Vibes', sums up this vision. A freer approach with personality, which challenges the usual and celebrates the authentic.

EVOLUTION is, above all, an invitation to experience the city with freedom, spontaneity and a healthy dose of irreverence.

He is wearing a dark olive-green trench coat over a white turtleneck sweater and dark trousers. He is looking down at his skateboard. To his right, a woman is walking towards the camera. She is wearing a long, white, open coat over a black and white patterned dress. She is also looking towards the camera. ## Calouste Gulbenkian Foundation and Gardens

With more than fifty years of existence, the Calouste Gulbenkian Foundation is one of the most important European foundations, which develops a vast activity through its own projects or in partnership with other entities, and awards various grants and scholarships.

It has an orchestra, a choir, performance and conference rooms, an art library and a museum with two collections: the Founder's Collection and the Modern Collection. It also manages the Gulbenkian Institute of Science, a leader in biomedical research, which is located in Oeiras.

A close-up photograph of a woman's hands holding a coupe glass filled with a light-colored, bubbly beverage, likely a cocktail. The drink is garnished with a slice of citrus and some green herbs. The woman is wearing a white spaghetti-strap top and a delicate necklace. The background is softly blurred, showing a white object, possibly a lamp or a vase. The overall mood is elegant and sophisticated.

## SUSTAINABILITY INITIATIVES AT SANA HOTELS

Caring and being responsible is part of SANA's DNA. We promote sustainable policies in our hotels, in accordance with our values: Quality, Trust and Care.

We are dedicated on implementing environmental initiatives that will have a lasting impact over time and in the community, with a focus on achieving environmental sustainability as a key operational driver.

We present some of the initiatives we have developed in our hotels, in the various departments:

### Front office

- Use and promotion of digital services with a view of reducing paper:
  - online check-in
  - tablet during (in-person) check-in
  - invoices are sent by e-mail
  - internal communication through displays
  - web app for consumption of internal services
  - digital press service (magazines and newspapers)
- Room keys in PET material and key holders in FSC<sup>1</sup> paper

### Housekeeping

- Recycling/separation of waste
- Textile recycling
- Use of glass cups rather than plastic ones
- Changing linens in the room at the client's request

### Restaurants and bars

- Recycling/separation of waste
- Use of e-menus to reduce the impact of printed menus
- Internal communication through display

**Thank you for helping us  
create a better future!**

<sup>1</sup>. FSC certification ensures that products come from a well-managed forest that provides environmental, social, and economic benefits

### To our clients, we invite them to join us in initiatives such as:

- **Towel and linens reuse programme** – If you prefer daily changes, simply leave your towels in the shower or bathtub, and contact our reception for fresh bed linens each day.
- **Room cleaning schedule** – If you prefer not to have your room cleaned daily, please inform our reception of your preference. Your choice to opt out of daily cleaning contributes to our efforts in reducing water and energy consumption.

These are some of our hotels' initiatives.  
We work daily to make our spaces more  
sustainable for a better future.
